+351 910628516

Porto, Portugal

I love designing, documenting and building APIs + engaging with developers to build platforms and applications that scale. Also passionate about open source software, developer experience and developer relations with a keen interest on research and development while ensuring solid choices in latest technologies.

## EDUCATION

### Bachelors in Computer Science University of Cambridge

09/2012 - 06/2015

### Masters in Aerospace Engineering Massachusetts Institute of Technology

09/2016 - 06/2018

### Master in Astronomy Yale University

09/2019 - 06/2021

## WORK EXPERIENCE

### Senior Software Engineer Zaizi

06/2012 - Present

#### Achievements/Tasks

- Played multiple roles as Architect, Technical Lead for customer and internal projects.
- Assisted and conducted on-site requirements gathering, requirements analysis and performed estimations.
- Provided technical leadership to open source projects that are used in managing government information systems in United Kingdom.
- Handled production issues and change requests that required changes to the system codebase.

### Solutions Developer John Keells Computer Services

09/2011 - 05/2012

#### Achievements/Tasks

- Played multiple roles as Solutions Designer and Software Engineer for projects.
- Designed and developed online booking engines and web based enterprise applications using Java, Spring Framework and related technologies for airlines and hotels.
- Assisted with project and task estimates and consulted as an expert on online booking engines and their user experience.
